BEWARE THE TIDES!

The bar that connects Ministers Island to the mainland is accessible for 2 ½ hours each side of low tide. The remainder of the day, the bar is underwater. If there is water over the bar, DO NOT try to cross on foot or in a vehicle. Swift currents and cold water are very dangerous. Wait 6 hours until the bar is accessible again.

Information on accessible times is available at both ends of the bar. Also, the website <http://www.waterlevels.gc.ca/english/station?sid=40> has tidal data for St. Andrews.
